Best

AMERICAN ROCK SALT

We proudly carry American Rock Salt in 50 pound bags and bulk form. A USA company located in Upstate New York. Widely respected for its ice melting products for municipal and commercial customers.

POLAR ICE MELT FLAKE

Long lasting time-frame. Calcium flake formulation capably melts snow and ice to negative 24 degrees Fahrenheit. Extreme visibility with blue color indicator. Available in 50 pound bags

ENVIRONMELT ICE MELT

Widely respected as THE Green Solution. Advanced formulated with CMA (Calcium Magnesium Acetate) for exceptional melting. Not as harmful to vegetation. Available in 50 pound bags.

MR. MAGIC

Fast acting, long lasting formulation ice melt that requires less than competing ice melts for same desired effect. Easier on the environment, easier on concrete, brick and wood and safer for pets than many other products.

SAFER THAN SALT COMMERCIAL

Precision formulated for commercial applications. Advanced CMA coating to jump start melting process & Magnesium Chloride coating. Available in 50 pound bags.

PELADOW CALCIUM PELLETS

Premium performing ice melter capable of working to negative 25 degrees Fahrenheit. Available in 50 pound bags.

VAPORIZER PRO GRADE FIRE CRYSTAL

Infused with Calcium Chloride & CMA, designed for superior results. Fast acting, long-lasting, colored crystals melt snow and ice 2x-2.5x faster than Rock Salt.

VAPORIZER ICE MELT FLAKE

Calcium Chloride Flake effective to negative 30 degrees Fahrenheit. Calcium Flake attracts moisture making it perfect for dust control. Available in 50 pound bags

MAG PELLETS

Dead Sea MAG is a high performance ice melter to -13F. Powerful performance that is naturally safer for pets, people & the environment.

PACKAGED ROCK SALT & DEICERS

We are glad to assist you in selecting the best product for your needs. **Contact David Szydlowski, Division Manager, Ice Control / Transportation at 585.292.9871** to request Bulk / bagged quotes & the fastest delivery.

Our team would be glad to assist you in calculating the BTU's required for your job site. For a price quote, the best-maintained rental heaters, outstanding service & fastest delivery, give us a call.

CONCRETE CURING & THAWING

- Flagro, HeatKing, Wacker Neuson
- Diesel
- 150,000 -620,000 BTU

FORCED AIR HEATERS

- Mi-T-M
- Propane Kerosene
- Up to 400,00 BTU

INFRARED HEATERS

- Val6
- Electric / Kerosene
- 51,000 - 140,00 BTU

INDIRECT HEATERS

- Flagro & Frost Fighter
- Propane, Natural Gas, Kerosene
- 200,000 - 500,000 BTU

JOBSITE HEATERS - FORCED & INDIRECT

- Frost Fighter
- Propane, Natural Gas, Oil & Diesel
- 500,000 -700,00 BTU

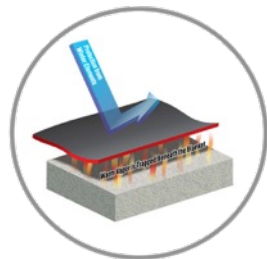

PORTABLE ELECTRIC HEATERS

- Patron
- Electric
- 5,100 - 205,00 BTU

SELF-CONTAINED INDIRECT HEATER

- Frost Fighter
- Propane, Natural Gas, Oil & Diesel
- 390,000 -780,00 BTU

CONCRETE CURING BLANKETS

- Proven in maintaining heat of hydration, particularly during the critical early stages of concrete curing.
- Low 0.87 Perm rating, providing superior vapor block during curing
- Available in a range of sizes.

INSUL-TARP FORM COVERS

- Lightweight design integrates closed cell foam & reflective technology with a protective poly coating.
- Very effective for insulating under concrete slabs in pole barns, crawl spaces, residential, commercial & agricultural radiant heating systems

HOW TO CALCULATE BTUS & HEATER RENTAL NEEDS

FrostFighter, a leading manufacturer of heaters, provides an excellent resource and guide on their web site to calculate BTUs and heater rental needs. Visit <http://frost-fighter.com/calculator/> to access the FrostFighter BTU Calculator and Fuel Consumption Rates.

Step 1: Calculate the Volume of Space to be heated

- Rectangular Cubic Feet: multiply Length by Width by Height to calculate cubic feet.
- Dome - Cubic Feet: calculating the cubic feet of a Dome can be quite completed. Visit <http://frost-fighter.com/calculator/> to use Frost Fighter's calculator.

Step 2: Describe your enclosure

- **Very Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - heavy partitioning.
- **Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - heavy partitioning.
- **Fairly Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - medium partitioning.
- **Fairly Tight:** tight roof and completed walls without insulation, window and door openings enclosed with canvas or plastic - medium to heavy partitioning.
- **Tight:** windows, doors, and elevators installed, walls exist (not dry-walled) - medium partitioning.
- **Very Tight:** windows, doors, and elevators installed, walls exist (not drywalled) - no partitioning.

Step 3: Choose Desired Temperature-

- 20°F to 60°F

Step 4: Choose a Heater Unit

- Choose from a range of outstanding rental heaters available from The Duke Company.

Source: <http://frost-fighter.com>

FrostFighter

BTU CALCULATOR

STEP 1 Choose and enter shape dimensions or enter a volume:

Rectangular Dome

Length: 20 ft
Width: 40 ft
Height: 20 ft

Volume: 16000 ft³

STEP 2 Choose the option that best describes your enclosure:

Very Loose Loose Fairly Loose Fairly tight Tight Very Tight

STEP 3 Choose desired temperature rise:

60°F 50°F 40°F 30°F 20°F

STEP 4 Choose a heating unit:

ID# 200 Oil/Diesel (220,000 BTU)
ID# 200 LPNG (210,000 BTU)
ID# 350-11 Oil/Diesel (350,000 BTU)
ID# 350 LPNG (350,000 BTU)

RESULT

1 (1.00) ID# 200 Oil/Diesel (220,000 BTU) heating units required for 16,000.000ft³ using a total of 62,400 BTUs.

SNOW PLOW WEAR PARTS - A TO Z

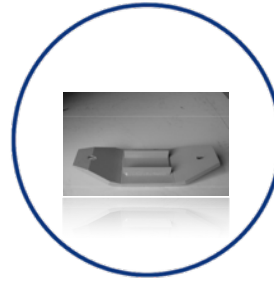

PNS CAST SNOW PLOW SHOES

Our Range of PNS Cast Snow Plow Shoes includes: Cast Snow Plow Shoes, Cast Wing Snow Plow Shoes, Cast Frame Snow Plow Shoes, Large Ball Feet, Cast Moldboard and Cast Heavy Duty.

CSC NI-HARD SNOW PLOW SHOES

Our Range of CSC NI-Hard Snow Plow Shoes includes: Ni-Hard Wing Shoes, Ni-Hard Moldboard Shoes, and Ni-Hard Frame Shoes - Mushroom and Boat.

OCS CARBIDE SNOW PLOW SHOES

Our Range of OCS Carbide Snow Plow Shoes includes: Carbide Frame Shoes - Boat and Flat

OCS STEEL FRAME SNOW SHOES

Our Range of OCS Steel Frame Snow Plow Shoes includes Flat, Boat and Tenco.

OST STEEL MOLDBOARD SNOW SHOES

Our Range of OST Steel Moldboard Snow Shoes include: 8" Centers and 8"-12" Centers; Flat, Boat and Tenco; Standard, Heavy-Duty, Reversible, One Way; and One Way Plows, Double and 60 Degree.

OST CURB RUNNERS & BUMPERS

TB Our Range of OST Curb Runners & Bumpers includes Universal, Heavy-Duty and For Carbide Blades

STEEL SNOW PLOW BLADES

Our inventory of Steel Snow Plow blades are meticulously manufactured from high quality, hot-rolled 1084 finished steel.

Available in 1/4 inch to 1 inch thicknesses, we are able to procure custom lengths and punches.

RUBBER & CARBIDE PLOW BLADES

Rubber blades provide essential protection for surfaces that are more delicate than those used for either steel snow plow blades or carbide snow plow blades.

Carbide tips provide essential capabilities to reduce labor in change-over time.

STEEL NOSE PIECES FOR PLOWS

We carry one of Western New York's widest range of Steel Nose Pieces for the snow plows including Frink, Tenco, LaRochelle, Everest and Viking Snow Plows.

SNOW PLOW WEAR PARTS - FEATURED MANUFACTURERS

AIRFLO

Airflo is a leading manufacturer of quality truck equipment including snow plows, spreaders, dump bodies, multi-purpose dump bodies and hoists.

THE BOSS

The Boss is a widely respected manufacturer of snow plows including:

- Power-V Multi-position Plows for 1/2 through 2-ton trucks.
- Straight-Blade Plows for Skid Steers.
- Hopper & Tailgate Spreaders.
- Snow plows for UTVs & ATVs.
- Box Plows for backhoe class tractors.

HENDERSON

Henderson is a leading manufacturer of sand & salt spreaders, tailgate spreaders, snow plows (front mounted), and snow plow wings, anti-ice systems and deicing systems.

MEYER

Meyer manufactures a range of high performance snow plows, spreaders, snow and ice removal equipment.

SWENSON

Swenson is an innovator in snow removal and ice control for over 70 years. The company manufactures a range of spreaders for utility vehicles to tri-axle dump trucks.

WESTERN

For over 60 years, WESTERN has been manufacturing quality snow plows and ice control equipment including hopper and tailgate-mounted ice control sand and salt spreaders.

EVOLUTION EDGES

Evolution Edges is a leading manufacturer of Snow Plow Blades, Snow Plow Shoes, Grader Blades, Spreader Chains and Snow Plow Accessories.

Compaction Equipment, Tube Sand, Black-Top & Pothole Repair

Cold temperatures, snowfall, ice control solutions and snow plowing, can result in a preponderance of potholes. The Duke Company carries a wide range of rental equipment and blacktop repair solutions including compaction equipment (ride-on and walk-behind rollers) and Blacktop Patch to restore the drivability of roads and parking lots.

Compaction Equipment

The Duke Company carries a comprehensive fleet of the best brands of well-maintained rental equipment including ride-on compaction equipment (double-drum, single-drum & tandem drum) and walk-behind compaction equipment (forward plate rentals, rammers & stompers, reversible plate compactors and walk-behind rollers).

Tube Sand

Available in 60 pound bags, QUIKRETE® Tubesand® can be placed adjacent to rear axles and directly above wheel wheels to increase weight dispersion and traction.

Black-Top Repair

Quikrete is a go to solution for Ice Control professionals for quick and durable black top repairs. The Duke Company carries Quikrete Blacktop Patch 1701-52 in 50 pound bags and pallets (63 bags per pallet).

Helpful Pothole Patching Information:

- Easy to Use: use Quikrete Blacktop Patch right out of the bag without any heating or mixing.
- Easy to form and compact for quick application in patching blacktop and asphalt. Leading Cold Patch solution, that prepares the surface for immediate use.
- Approved by the Department of Transportation (DOT).
